Captain Petrovich

Female, late 30's. Captain of one of the biggest ship in the fleet, the space carrier. Petrovich is even-tempered, professional. She is ready to step into any fight, and has the where-with-all and intelligence to prevail. She's been decorated several times, but does not have a large ego.

Captain Petrovich (USF Independence)	This is Captain Petrovich. All fighter pilots report to Ready Room Bravo.
Captain Petrovich (USF Independence)	We've exited the E-R transit prematurely at Saturn instead of our intended transit point of the Proteus shipyard near Neptune.
Captain Petrovich (USF Independence)	I know a lot of you haven't served with me before, but we need to become a cohesive military unit quickly to be effective against the enemy.
Captain Petrovich (USF Independence)	We know precious little about the offensive, but we do know that we just got our asses kicked at Mars.
Captain Petrovich (USF Independence)	Our generator is overheated and will need at least four hours to recover.
Captain Petrovich (USF Independence)	We've picked up garbled messages about attacks on Earth and the inner planets, but nothing confirmed yet.
Captain Petrovich (USF Independence)	For now, we need to secure supplies for this ship and make our way to the intended bridge point of Neptune.
Captain Petrovich (USF Independence)	I've moved us within range of Saturn's moon, Titan.
Captain Petrovich (USF Independence)	You are to escort a crew of MCVs and Astrotankers to the battery bank down there and harvest as much fuel as you can.
Captain Petrovich (USF Independence)	Be prepared for anything.
Captain Petrovich (USF Independence)	I know this hasn't been an easy day, but rest assured, we will prevail. Dismissed.
