Solatube

Have you heard about the amazing new skylight that will fill a room with natural light without the cost and hassle of ordinary skylights? It's called Solatube, The Miracle Skylight. And it's the brightest idea in light since the sun. A Solatube installs in less than two hours. That's because Solatube measures just ten inches in diameter, yet easily lights up to hundred and fifty - square - foot area. Solatube invented a new technology that gathers sunlight on your roof, transfers it through reflective tubing, then diffuses the light evenly across a room. The result is as gorgeous as it is ingenious. Call 1-800-773-SOLA today, and discover why Solatube is the world's most popular compact skylight. That's 1-800-773-7652. In as little as two hours, you can transform even the darkest bathroom, hallway or living room into a bright, beautiful space. Call 1-800-773-7652 ask for a free video or brochure. Solatube. The Miracle Skylight.

Male or female. Should sound smart, believable. Read should be Conversational.
