

OWL:

- *A calm, collected and wise helper.*
- *A soft-spoken gentleman who offers you peaceful words of encouragement on your journey.*
- *British accent (Jude Law or Orlando Bloom type of voice)*

Bella? Could it be? You've grown, dear child. They've finally let you wander about on your own did they? Good...good. Now listen...I'm not sure how much Fairy has told you about...

(pauses because he's unsure whether your parents are alive) ...
your parents.....but they were good people. I did not know them personally. I acted only as a Messenger.....

For other undefined action scenes and spots in the game where you investigate the area:

Bella! Watch out!

Quick! This way!

Interesting. I wonder if this is of any use. This may be useful. Ah, I think I spotted it. Here we are.

INTRO

- *(can we get it read with a take from the Owl and one with Green Godmother?)*

Not long ago, deep inside an enchanted forest...

...lived a young child, unaware of her true lineage.

Raised by an old friend of her forgotten mother: a Fairy...

...and a young Dragon who grew up alongside the child.

GREEN GODMOTHER

- *An elderly lady or could be a woman her in her 50's*
- *Sweet and caring and a good story teller*

- *British accent*

Bella! (also try: Bella?!)

If you're here then I fear the worst is upon us. Sit child, there's much to discuss.

(she tells you the story of your past while video shows montage sequence of events)

Not long after you were born, you were kidnapped by an evil Witch who now dwells in the dark Castle to the north. Your brave mother embarked on a quest, not unlike your own, and saved you from the Witch.....but not without consequence... After nearly defeating the Witch, you were broken free of her clutches...and in that moment...your dear friend Dragon swooped down to grab you."

. (a couple dramatic exclamations, warning Bella to be careful, etc.)

Bella, no!

She's crossed the barrier!

We must protect her!

Witch (young & old)

- Young: *stern and intimidating, yet calmly persuasive woman's voice (Charlize Theron?)*
- Old: *classic cackling old witch ("I'll get you my pretty! Ha ha ha!")*
- *This character has two faces and therefore requires two deliveries as she changes throughout the game*

<SPOKEN AS THE YOUNG WITCH> My little baby Bella... it's been so long...

Your magic is strong, my dear...as is expected from the daughter of the great Princess Isabella.

W..What is it? Fairy never told you?...about your mother? The Princess?

She's here with me and very much alive. She misses you dearly, child. Join us and we can show you power far beyond what those pathetic Fairies call magic..." (the player's magic wand is yanked from their hand and the Witch crushes it to dust with ease).

Spoken very calmly as the camera is fading out: I see it in your eyes, Bella. That same thirst for power. We are very much one in the same, my dear...

(a couple of grunts when she is struck and falls to her knees):

Ugh! Ahh! Oouf!

<NOW SPOKEN AS THE OLD WITCH> Useless pest!

Errrrrrrrrrrrraaaaahhhh! (fires a huge blast of magic)

Heeeya Heeeya Haaaaaa! (A few cackles of classic Witch-like laughter)

Errrrrrrrrrrrrr! (a long frustrated grunt as she wisps away)
