Big Man on Planet – Zaya

A fiery combination of Lara Croft and Ripley in Alien, Zaya is the most experienced defense officer with the BFF. She's traveled and patrolled every part of the planet, including its atmosphere. Tough and no-nonsense, Zaya's always ready for the call of duty to protect her planet, and manages to look completely hot while she's doing it. Zaya never lets up her "I'm on a mission, dammit!" act. It doesn't matter if she's fighting the enemy or sprinkling croutons on her salad, Zaya always goes for it in Top Gun full-throttle style.

1. ZAYA

(asked why she crashed through the ceiling instead of using the door)

Doors are for amateurs. So are cups. Hand me that pitcher of scalding hot cocoa. *(pouring the cocoa into her mouth, gulping hard, then)* Questions?

2. ZAYA

(after Hyperia tells Adam he can go on a mission to the Freaky Dark Side)

When are we leaving? *(off Adam's look)* Please, you didn't think you'd be going without Fandaria's top BFF? You can't spell "mission" without "Zaya."

3. ZAYA

(to Warta, who objects when her lipstick is used to fight off bugs)

Let's be real. That is so not a good color for you. And we'll talk later about that blush.

4. ZAYA

(acknowledging her possible attraction to Adam)

You know what's weird? Even though you're an alien with hairy legs and creepy friends, I don't feel the urge to destroy you.

5. ZAYA

(to an alien, threateningly)

You don't want to mess with me. 'Cause I'm your worst nightmare. And if your nightmare had a nightmare, it would be about me. Got it?
